

Public Private Partnership Possibilities

In Co-operation with our partners we have the ability to accompany you in a professional and efficient way during all phases of a PPP project. Here we combine the necessary technological know-how with our specific experiences of PPP models.

As an owner-managed company, located in the area of environment, water and energy, we are able to offer you independent advice.

PPP-Models

- Briefing on PPP options
- Workshops
- Moderation of Workgroups
- Comparison calculations
- Preparation of PPP offers (extended workbench)
- Identification of PPP-possibilities for politicians, administrations and companies

Tenders

- Preparation of tenders
- Contracting fees acc. to GO
- (Europe-wide) prequalification
- Realisation of international tenders
- Definition of organisation models
- Europe-wide tendering of management, co-operation and BOT models
- Chairmanship of the advisory board
- Contract controlling and mediation
